

Lifelong

Congenital Heart Disease Network

London | East | South East

Have your say

Make a difference

Improve your service

Are you a patient, parent or carer of someone with Congenital Heart Disease?

We are hosting an informal drop in session and would love to gather your views on the topic of:

TRANSITION - moving from children's to adult services

As PPV Reps, we volunteer our time to give back to the CHD community within our network and hope you can join us, share your stories and the concerns that matter to you. We can then feed this back to the network board for further discussions and make improvements.

We are inclusive and we are here to listen.

Date:

Friday 13 September 2024 12:00 – 13:00

Where:

Online on Microsoft Teams
